

EXCEED
Superior Legume Inoculant

Arrowleaf Clover

PEAT

www.visjonbiologics.com

Contains: *Rhizobium leguminosarum biovar trifolii (vesiculosum)*

Product 9002

Net Weight 15 lbs

Package Configuration: 2-15lb pkg. per cs., 54 cs. per pallet

Directions for Use:

- The optimum method for applying EXCEED PEAT is by using the slurry method.
- Dampen the seed with non-chlorinated, clean, cool water at a rate of 8.5 oz. of water per 50 pounds of seed.
- Add appropriate amount of inoculant (6.0 oz/50 pounds of seed) and mix water, seed, and inoculant thoroughly until seed is uniformly coated.
- Apply entire contents of bag to the amount of seed treated stated on the package.
- This method should be done in a container outside of the planter box.
- Allow 1-3 minutes for mixture to dry and then plant as soon as possible.
- EXCEED PEAT can also be applied dry directly onto the seed. Mix seed and inoculant thoroughly until seed is uniformly coated. Layering seed and inoculant will aide in this process.
- Applying the inoculant dry is also recommended for seed that is pre-treated with fungicide. However, maximum seed adhesion will not be obtained by applying this product dry.
- **FOR SOILS THAT HAVE NEVER BEEN HOST TO THE LEGUME BEING PLANTED, APPLY PRODUCT AT A 1.5-2.0X RATE.**

Directions for Use:

- STORE IN A COOL, DRY PLACE OUT OF DIRECT SUNLIGHT
- STORE PRODUCT BETWEEN 40 AND 77° F
- OPEN PACKAGE ONLY WHEN READY TO USE
- USE BEFORE EXPIRATION DATE
- **EXCEED PEAT CARRIES A ONE-SEASON SHELF-LIFE**

EXCEED PEAT IS NOT A PLANT FOOD PRODUCT

Precautionary Information:

While EXCEED PEAT is completely organic and non-toxic it is recommended that the applicator avoid inhalation. Visjon Biologics recommends the use of gloves and eye protection while using EXCEED PEAT.

Minimum Guarantee:

This inoculant guarantees a minimum of 200 million (2×10^8) viable cells of *Rhizobium leguminosarum biovar trifolii (vesiculosum)* per gram.
