# www.visjonbiologics.com

**Contains:** Sinorhizobium meliloti and leguminosarum biovar trifoli

#### Product 6007

Treats 5,000# of seed Net Weight 42 lbs.

Package Configuration: 1 packages/case, 45 cases/pallet

## Product 6006

Treats 2,500# of seed Net Weight 26 lbs.

Package Configuration: 25 packages/case, 54 cases/pallet

#### **Directions for Use:**

- Use EXCEED<sup>™</sup> PreCoat to inoculate only the legume(s) designated on this package.
- Use before the expiration date marked on the package.
- Label seed with the same expiration date if intended for resale.

## **Dry Application**

- EXCEED™ PreCoat should be applied to dry, clean seed.
- EXCEED<sup>™</sup> PreCoat will naturally adhere to the seed. Do not use water to wet the seed or use any sticking agents or adhesives.
- Apply inoculant at a rate of 8 oz. per 60 lbs. of seed.
- Allow product to thoroughly mix with seed; treated seed should appear white.

### **Coating Application**

- EXCEED™ PreCoat can be used as a pre-inoculant in seed coating or build-up process.
- It is important to allow the seed coat to be permeable by oxygen.
  Use this product before the expiration date; label seed with the same expiration date if pre-inoculated seed or coated seed is for re-sale.

## Re-inoculation of previously inoculated seed

- Slowly screen seed to shake off excess inoculant material.
- Re-Inoculate with EXCEED™ PreCoat, following the recommended application rates and expiration dating.

#### Inoculation of seed mixtures

- Inoculate each legume seed component of the mixture separately using the appropriate rhizobial strain for each legume.
- Blend the pre-inoculated components together into final seed mixture for bagging.
- Label the seed bag tags with the expiration date of the inoculant which expires first.

## **Seed Treatment Compatibility:**

 EXCEED<sup>TM</sup> PreCoat is compatible with most fungicide seed treatments when applied dry.

- Seed treated with this product should be stored under the same conditions.
- Seed inoculated with EXCEED<sup>™</sup> PreCoat only or with EXCEED<sup>™</sup> PreCoat and metalaxyl/ mefenoxam has the same expiration date as the product itself.
- Seed treated with EXCEED<sup>TM</sup> PreCoat and thiram has an expiration date of up to 9 months.
- Seed treated with other fungicides/insecticides has an expiration date of up to 6 months.
- In no case can the expiration date on treated seed exceed the expiration date stated on the product container.

# Storage of EXCEED™ PreCoat:

- AVOID STORAGE IN DIRECT SUNLIGHT AND STORE PRODUCT AT TEMPERATURE BETWEEN 40-78° F.
- KEEP PRODUCT COOL AND OUT OF SUNLIGHT AND ONLY OPEN WHEN READY TO USE.
- DO NOT ALLOW PRODUCT TO BECOME WET OR EXPOSED TO HIGH HUMIDITY. DO NOT STORE PRODUCT IN AN AREA TO BE FUMIGATED.
- EXCEED™ PRECOAT FOR ALFALFA/TRUE CLOVER CARRIES AN 18-MONTH SHELF LIFE AND SHOULD BE USED BEFORE EXPIRATION.

# EXCEED™ PRECOAT FOR ALFALFA/TRUE CLOVER IS NOT A PLANT FOOD PRODUCT.

## Minimum Guarantee:

This inoculant guarantees a minimum of 100 million (1 x 108) viable cells of *Sinorhizobium meliloti and leguminosarum biovar trifoli* per gram.
